This product is for research use only and is not intended for diagnostic use.

## PRODUCT INFORMATION

<b>Antigen Description</b>	ZFP90 (ZFP90 zinc finger protein) is a protein-coding gene. Diseases associated with ZFP90 include optic atrophy, and paraplegia, and among its related super-pathways are Gene Expression. GO annotations related to this gene include RNA polymerase II core promoter proximal region sequence-specific DNA binding transcription factor activity involved in negative regulation of transcription and DNA binding. An important paralog of this gene is ZNF79.
