

## Anti-Aubergine (internal region) polyclonal antibody (DPAB21321)

This product is for research use only and is not intended for diagnostic use.

## PRODUCT INFORMATION

Product Overview	Rabbit Anti-Aubergine Polyclonal Antibody
Target	Aubergine
Immunogen	This affinity purified antibody was prepared from whole rabbit serum produced by repeated immunizations with a synthetic peptide corresponding to an internal region of Drosophila melanogaster Aubergine/Sting protein.
Isotype	IgG
Source/Host	Rabbit
Species Reactivity	Drosophila
Purification	Anti-Aubergine affinity-purified antibody is directed against Drosophila Aubergine protein. The product was affinity purified from monospecific antiserum by immunoaffinity purification. A BLAST analysis was used to suggest limited cross reactivity with Au
Conjugate	Unconjugated
Applications	WB, ELISA
Format	Liquid (sterile filtered)
Size	100 μg
Buffer	0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2
Preservative	None
Storage	Store antibody at -20°C prior to opening. Aliquot contents and freeze at -20°C or below for

extended storage. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for s

Ship Dry Ice

## **BACKGROUND**

Introduction	Aubergine is a plant of the family Solanaceae (also known as the nightshades) and genus Solanum. It bears a fruit of the same name, commonly used in cooking. As a nightshade, it is closely related to the tomato and potato. It is domesticated in India from Solanum incanum.
