

Anti- Invertase Polyclonal antibody (DPAB22226)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Product Overview	Goat Anti-Invertase Polyclonal Antibody
Target	Invertase
Immunogen	Invertase [Candida]
Isotype	IgG
Source/Host	Goat
Species Reactivity	Bacteria
Purification	This product is an IgG fraction antibody purified from monospecific antiserum by a multi-step process which includes delipidation, salt fractionation and ion exchange chromatography followed by extensive dialysis against the buffer stated above. Assay by
Conjugate	Unconjugated
Applications	WB, ELISA
Format	Lyophilized
Concentration	10.0 mg/mL by UV absorbance at 280 nm
Size	50 mg
Buffer	0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2
Preservative	None
Storage	Store vial at 4°C prior to restoration. For extended storage aliquot contents and freeze at -20°C

or below. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for sev

Ship

Ambient

BACKGROUND

Introduction

Invertase hydrolyses the terminal non reducing beta D fructofuranoside residues in beta D fructofuranosides. It is the enzyme that bees use to convert nectar into honey. Industrial and confectionary applications use yeast invertase to split sucrose into fructose and glucose and also to improve the shelf life of food products.
