

Anti-Secretory Component polyclonal antibody (DPAB3759)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Product Overview	Rabbit anti-Rat Secretory Component
Specificity	Reacts only with secretory component and secretory IgA possessing the secretory component, by gel diffusion and IEP analysis.
Immunogen	Highly purified rat secretory component
Isotype	IgG
Source/Host	Rabbit
Species Reactivity	Rat
Conjugate	Unconjugated
Format	Liquid
Size	1 mg
Preservative	0.1% Sodium Azide
Storage	4°C

BACKGROUND

Introduction	The secretory component is a component of immunoglobulin A (IgA) which consists of a portion of the polymeric immunoglobulin receptor. Polymeric IgA binds to the polymeric immunoglobulin receptor on the basolateral surface of epithelial cells and is taken
Keywords	ECM 1; Extracellular matrix protein 1; Secretory component p85; extracellular matrix protein 1;
