

Rabbit Anti-Human MORN5 (a.a. 24-153) Polyclonal antibody (DPABH-08796)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Target	MORN5
Immunogen	Rabbit polyclonal MORN5 antibody was raised against a recombinant human MORN5 protein 24-153aa (BC133690).
Isotype	IgG
Source/Host	Rabbit
Species Reactivity	Human, Rat, Mouse
Purification	Affinity purified
Conjugate	Unconjugated
Applications	ELISA, WB, IHC ELISA: 1:20000-1:80000 WB: 1:200-1:1000 IHC: 1:100-1:500
Format	Liquid
Concentration	1.0 mg/ml
Size	100 µl
Buffer	PBS, pH 7.4 with 0.02% sodium azide.
Preservative	0.02% sodium azide
Storage	This product is stable for several weeks at 4°C as an undiluted liquid. Dilute only prior to

immediate use. For extended storage, aliquot contents and freeze at -20°C or below. Avoid cycles of freezing and thawing. Expiration date is one (1) year from date of receipt.

BACKGROUND

Introduction

MORN5 (MORN repeat containing 5) is a protein-coding gene, found in humans and other species, that encodes a protein containing MORN (Membrane Occupation and Recognition Nexus) motifs, which are typically involved in membrane binding. It plays a role in development, with studies in chickens showing it is expressed during craniofacial development.
