

Anti-Ethylglucuronide polyclonal antibody (DPATB-H82887)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Product Overview	Sheep Anti-Ethylglucuronide Polyclonal Antibody
Target	Ethylglucuronide
Immunogen	Ethylglucuronide conjugated to Bovine thyroglobulin.
Isotype	IgG
Source/Host	Sheep
Species Reactivity	Bovine
Purification	Ammonium Sulphate Precipitation
Conjugate	Unconjugated
Applications	ELISA
Format	Liquid
Size	50 µl
Buffer	pH: 7.20Preservative: 0.09% Sodium azideConstituent: 0.88% Sodium chloride
Preservative	0.09% Sodium Azide
Storage	Store at-20°C.

BACKGROUND

Introduction

Ethylglucuronide is a metabolite which is formed in the body following ingestion of ethanol. It is used as a biomarker to test for ethanol use in situations where such use is prohibited, such as by the military or in recovering alcoholic patients. EtG has
