

Anti-phenyl Acetic acid polyclonal antibody (DPATB-H83274)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

| | |
|---------------------------|--|
| Product Overview | Rabbit Anti-phenyl Acetic acid Polyclonal Antibody |
| Target | phenyl Acetic acid |
| Immunogen | Chemical / Small Molecule; synthetic phenyl acetic acid conjugated to protein carrier. |
| Isotype | IgG |
| Source/Host | Rabbit |
| Species Reactivity | N/A |
| Purification | Whole antiserum |
| Conjugate | Unconjugated |
| Applications | ELISA, ICC, WB, ICC/IF |
| Format | Liquid |
| Size | 50 µl |
| Buffer | 50% Glycerol, ddH2O |
| Preservative | None |
| Storage | Store at +4°C short term (1-2 weeks). Aliquot and store at -20°C long term. Avoid repeated freeze / thaw cycles. |

BACKGROUND

Introduction Synthetic phenyl Acetic acid is a white crystalline compound with a honey like odour in low concentrations, used in some perfumes and in penicillin G production. In its pure form it is harmful by ingestion, inhalation or through skin contact and is a severe irritant.
