

Melengestrol Standard (DWT123)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Conjugate	N/A
Cas.No	5633-18-1
Molecular Weight	354.5g/mol
Format	Liquid
Size	5 mg
Storage	Store unopened in freezer(-10 °C to 25 °C)

BACKGROUND

Introduction	Melengestrol (INN, BAN) is a steroidal progestin and antineoplastic agent which was never marketed. An acylated derivative, melengestrol acetate, is used as a growth promoter in animals. While melengestrol is sometimes used as a synonym for melengestrol acetate, what is usually being referred to is actually melengestrol acetate and not melengestrol.
Keywords	Melengesterol; Melengestrel; Melengestrol
