

Anti-Alcama polyclonal antibody (CABT-B386)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Target	Alcama
Immunogen	Recombinant protein encompassing a sequence within the center region of zebrafish Alcama. The exact sequence is proprietary.
Isotype	IgG
Source/Host	Rabbit
Species Reactivity	Zebrafish
Purification	Purified by antigen-affinity chromatography.
Conjugate	Unconjugated
Applications	IHC-Wmt
Cellular Localization	Membrane
Format	Liquid
Concentration	1 mg/ml (Please refer to the vial label for the specific concentration)
Size	50 µl
Buffer	1XPBS, 20% Glycerol (pH7). 0.01% Thimerosal was added as a preservative.
Preservative	None
Storage	Keep as concentrated solution. Aliquot and store at -20°C or below. Avoid multiple freeze-thaw cycles.

BACKGROUND

Introduction Cell adhesion molecule. Involved in neurite extension by neurons via heterophilic and homophilic interactions.

Keywords ALCAM;activated leukocyte cell adhesion molecule;MEMD;CD166;CD166 antigen

GENE INFORMATION

Synonyms cd166; alcama; alcam; DM-GRASP; activated leukocyte cell adhesion molecule a
