

Anti-PRL monoclonal antibody, clone RTN-4 [HRP] (CABT-BL3017)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Immunogen	Human PRL
Isotype	IgG1, κ
Source/Host	Mouse
Species Reactivity	Human
Clone	RTN-4
Conjugate	HRP
Applications	ELISA
Format	Liquid
Buffer	50% PBS and 50% glycerol
Preservative	None
Storage	Store at -20°C. After reconstitution, aliquot and store at -20°C; avoid thaw and freeze cyclically.

BACKGROUND

Introduction	This gene encodes the anterior pituitary hormone prolactin. This secreted hormone is a growth regulator for many tissues, including cells of the immune system. It may also play a role in cell survival by suppressing apoptosis, and it is essential for lactation. Alternative splicing results in multiple transcript variants that encode the same protein. [provided by RefSeq, Aug 2011]
