

# Mouse Anti-Thiamethoxam monoclonal antibody, clone TMO (CABT-L3071)

This product is for research use only and is not intended for diagnostic use.

## PRODUCT INFORMATION

|                    |  |
|--------------------|--|
| Immunogen          | Thiamethoxam with carrier protein.         |
| Isotype            | IgG  |
| Source/Host        | Mouse                                      |
| Species Reactivity | N/A  |
| Clone              | TMO  |
| Purification       | Purified from mouse ascites.               |
| Conjugate          | Unconjugated                               |
| Applications       | ELISA, LFIA                                |
| Format             | Liquid                                     |
| Concentration      | Lot specific                               |
| Size               | 1 mg                                       |
| Buffer             | PBS  |
| Preservative       | None                                       |
| Storage            | Long time storage is recommended at -20°C. |
| Ship               | Wet ice                                    |

## BACKGROUND

|                     |   |
|---------------------|---|
| <b>Introduction</b> | Thiamethoxam is a systemic insecticide in the class of neonicotinoids. It has a broad spectrum of activity against many types of insects. |
| <b>Keywords</b>     | Thiamethoxam;153719-23-4;Diaccloden;Actara;Cruiser;thiamethoxam   |
