

# Mouse Anti-CPV monoclonal antibody, clone 6H8 (CABT-RM017)

This product is for research use only and is not intended for diagnostic use.

## PRODUCT INFORMATION

|                           |   |
|---------------------------|---|
| <b>Specificity</b>        | CPV                                     |
| <b>Target</b>             | CPV                                     |
| <b>Isotype</b>            | IgG2a                                   |
| <b>Source/Host</b>        | Mouse                                   |
| <b>Species Reactivity</b> | CPV                                     |
| <b>Clone</b>              | 6H8                                     |
| <b>Purification</b>       | Chromatography on protein A Sepharose   |
| <b>Conjugate</b>          | Unconjugated                            |
| <b>Applications</b>       | ELISA (Cap), WB, ID, HIT                |
| <b>Format</b>             | Liquid                                  |
| <b>Size</b>               | 1 mg                                    |
| <b>Buffer</b>             | PBS, pH 7.4, 0.09 % sodium azide (NaN3) |
| <b>Storage</b>            | +4°C (2-8°C allowed)                    |

## BACKGROUND

|                     |   |
|---------------------|---|
| <b>Introduction</b> | Hybridoma clones have been derived from hybridization of Sp2/0 myeloma cells with spleen cells of Balb/c mice immunised with canine parvovirus. |
|---------------------|---|

**Keywords**

canine parvovirus; parvovirus; CPV; canine; parvo
