

## Anti-BEST3 monoclonal antibody, clone 2C7 (CABT-ZC1081)

This product is for research use only and is not intended for diagnostic use.

## **PRODUCT INFORMATION**

| Product Overview    | Mouse Monoclonal Antibody to Human BEST3 molecule,  |
|---------------------|---|
| Antigen Description | BEST3 belongs to the bestrophin family of anion channels, which includes BEST1, the gene mutant in vitelliform macular dystrophy, and 2 other BEST1-like genes, BEST2 and BEST4. Bestrophins are transmembrane (TM) proteins that share a homology region containing a high content of aromatic residues, including an invariant arg-phe-pro (RFP) motif. The bestrophin genes share a conserved gene structure, with almost identical sizes of the 8 RFP-TM domain-encoding exons and highly conserved exon-intron boundaries. Each of the 4 bestrophin genes has a unique 3-prime end of variable length. |
| Target              | BEST3   |
| Immunogen           | Full length human recombinant protein of human BEST3 produced in HEK293T cell.  |
| Isotype             | lgG1  |
| Source/Host         | Mouse   |
| Species Reactivity  | Human   |
| Clone               | 2C7   |
| Conjugate           | Unconjugated  |
| Applications        | ELISA, LMNX   |
| Buffer              | Stored in PBS (pH 7.4) containing 0.05% sodium azide and up to 5% trehalose.  |
| Preservative        | 0.05% Sodium Azide  |
| Storage             | Shipped at 4 °C. Upon delivery store at -20 °C. Dilute in PBS (pH7.3) before use. Stable for 12   |
