

Patulin [HRP] (DAGA-368H)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Antigen Description	Patulin is a mycotoxin produced by a variety of molds, particularly <i>Aspergillus</i> and <i>Penicillium</i> . It is commonly found in rotting apples, and the amount of patulin in apple products is generally viewed as a measure of the quality of the apples used in production. It is not a particularly potent toxin, but a number of studies have shown that it is genotoxic.
Conjugate	HRP
Applications	ELISA
Format	Liquid
Concentration	Batch dependent - please inquire should you have specific requirements.
Size	1 mg
Buffer	0.01M pH7.4 PBS
Preservative	None
Storage	Shipped at 4°C. Upon delivery aliquot and store at -20°C. Avoid freeze / thaw cycles.

BACKGROUND

Keywords	Patulin
