

Magic[™] Anti-C. difficile Toxin A Monoclonal antibody, Clone N0622422 (DCABY-4700)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Specificity	Clostridium difficile
Target	C. difficile Toxin A
Immunogen	Clostridum difficile toxin A antibody was raised in mouse using toxin/toxoid A of Clostridium difficile as the immunogen.
Isotype	IgG1
Source/Host	Mouse
Species Reactivity	C. difficile
Clone	N0622422
Conjugate	Unconjugated
Applications	ELISA (Cap), LFIA
Format	Liquid
Size	200 μg
Buffer	Protein A purified and supplied in PBS, pH 7.2, with 0.1% NaN3.
Preservative	0.1% Sodium Azide
Storage	Store at 4 °C for short term storage. Aliquot and store at -20 °C for long term storage. Avoid repeated freeze/thaw cycles.

BACKGROUND

45-1 Ramsey Road, Shirley, NY 11967, USA

Introduction

Clostridium difficile, or C. difficile, a gram positive anaerobic bacterium, is the major causative agent of colitis and diarrhoea that can occur following antibiotic intake. C. difficile infection is one of the most common hospital acquired infections. When C. difficile colonize the gut, they release two potent toxins, toxin A and toxin B, which bind to certain receptors in the lining of the colon and ultimately cause diarrhoea and inflammation of the large intestine.
