

Anti-Galactocerebroside (native) polyclonal antibody (DPATB-H81488)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Product Overview	Rabbit Anti-Galactocerebroside Polyclonal Antibody
Target	galactocerebroside
Immunogen	Full length native protein (purified) (Human) conjugated to Ovalbumin.
Isotype	IgG
Source/Host	Rabbit
Species Reactivity	Human
Purification	Whole antiserum
Conjugate	Unconjugated
Applications	WB
Format	Liquid
Size	200 µl
Preservative	None
Storage	Shipped at 4°C. Upon delivery aliquot and store at -20°C or -80°C. Avoid repeated freeze / thaw cycles.

BACKGROUND

Introduction A galactocerebroside (or galactosylceramide) is a type of cerebroside consisting of a ceramide

with a galactose residue at the 1-hydroxyl moiety. The galactose is cleaved by galactosylceramidase.
