

Anti-Thioctic Acid polyclonal antibody (DPATB-H83261)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

| | |
|---------------------------|--|
| Product Overview | Rat Anti-Thioctic acid Polyclonal Antibody |
| Target | Thioctic acid |
| Immunogen | Thioctic acid conjugated to BSA. |
| Isotype | IgG |
| Source/Host | Rat |
| Species Reactivity | N/A |
| Purification | Preadsorbed IgG fraction |
| Conjugate | Unconjugated |
| Applications | ELISA |
| Format | Liquid |
| Size | 50 µl |
| Buffer | 50% Glycerol, ddH2O |
| Preservative | None |
| Storage | Store at +4°C short term (1-2 weeks). Aliquot and store at -20°C long term. Avoid repeated freeze / thaw cycles. |

BACKGROUND

Introduction

Thioctic acid is a natural anti-oxidant which has been used for years in Europe because of it's ability to help maintain or restore liver health. It's strong anti-oxidant capabilities have been used for radiation sickness and diabetes-related neuropathy.
