

Rabbit anti-Camel Whole Serum antibody (LAB-035)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Product Overview	Rabbit anti Camel Whole Serum Secondary Antibody
Isotype	IgG
Source/Host	Rabbit
Clone	Polyclonal
Purification	Antiserum
Conjugate	Unconjugated
Applications	IEP
Format	Liquid
Size	2 ml
Buffer	0.1 % Sodium Azide
Preservative	0.1% Sodium Azide
Storage	2 - 8° C / 2 years from date of receipt.
Warnings	Sodium Azide (NaN ₃): Azide forms explosive chemical compounds with lead and copper plumbing. Care must be taken to wash waste down drains with large volumes of water. LD ₅₀ oral mouse 27 mg/kg. Wash all affected areas with large volumes of water and if swallowed consult your physician immediately.

BACKGROUND

Introduction

In blood, the serum is the component that is neither a blood cell (serum does not contain white or red blood cells) nor a clotting factor; it is the blood plasma with the fibrinogens removed. Serum includes all proteins not used in blood clotting (coagulation) and all the electrolytes, antibodies, antigens, hormones, and any exogenous substances (e.g., drugs and microorganisms).

Keywords

Serum; Serum (blood); Camel Whole Serum; Camel Serum; Antiserum
