

Mouse Anti-Citrinin monoclonal antibody, clone CIT (CABT-L2517)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Specificity	Citrinin
Immunogen	Citrinin with carrier protein
Isotype	IgG
Source/Host	Mouse
Species Reactivity	N/A
Clone	CIT
Purification	Protein A purified
Conjugate	Unconjugated
Applications	ELISA, LFIA
Format	Liquid
Concentration	Lot specific
Size	1 mg
Buffer	PBS
Preservative	None
Storage	-20°C. Avoid Freeze/Thaw Cycles
Warnings	For research use only and not for use in diagnostic or therapeutic procedures.

BACKGROUND

Introduction Citrinin is a mycotoxin which is often found in food. It is a secondary metabolite produced by fungi that contaminate long-stored food and it causes different toxic effects, like nephrotoxic, hepatotoxic and cytotoxic effects. Citrinin is mainly found in stored grains, but sometimes also in fruits and other plant products.
