PSA protein (≥96%) (DAGA-790)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Antigen Description  Prostate-specific antigen (PSA) is a protein produced by the cells of the prostate gland. PSA is present in small quantities in the serum of men with healthy prostates, but is often elevated in the presence of prostate cancer and in other prostate disorders.

Nature  Native

Expression System  Human seminal fluid

Purity  ≥96% by SDS-PAGE

Conjugate  Unconjugated

Applications  ELISA; WB

Procedure  None

Format  Liquid

Concentration  Batch dependent - please inquire should you have specific requirements

Size  1 mg

Buffer  10 mM Phosphate Buffered Saline, pH 7.4

Preservative  0.09% Sodium Azide

Storage  2-8°C
